PROFILE

A current Cyber Security Intern and aspiring cybersecurity professional with a solid understanding of IT support, security compliance, and threat prevention principles. Possesses hands-on exposure in technical and operational aspects of cybersecurity, and globally recognised certifications. Proficient in the application of best practices to improve security posture, secure system management, and troubleshooting.

WORK EXPERIENCE

Cyber Security Intern
AusBiz Consulting, Australia   July 2025 - Present

- Supporting security posture assessments and compliance documentation.
- Assisting with System Security Plan (SSP) reviews and security checks under supervision.
- Gaining practical exposure to governance frameworks and industry tools.

IT Support Officer
Himalayan Pole Treks, Kathmandu, Nepal   Mar 2023 - Sept 2024

- Delivered hardware and software troubleshooting for staff devices.
- Managed and responded to client emails, ensuring timely communication.
- Contributed to SEO optimisation, website updates, and content creation to improve online visibility.
- Provided technical support beyond core IT tasks, adapting to operational needs.

ACADEMIC PROJECTS

Face Mask Detection System
Bachelor's Final Semester Project (Python, OpenCV)

- Developed a machine learning-based system to detect mask usage in real-time.
- Implemented image processing techniques for accurate detection and alert generation.

EDUCATION

Master of Cyber Security
2024 - Present
University of Sunshine Coast

Bachelor of Science (Hons) in Ethical Hacking and Cyber Security
2019 - 2022
Coventry University
